

EQUILITE'S RICOCHET™ HORSE SPRAY **Horse Journal's All-Natural "Editor's Choice"** **and "Bottom Line" Favorite!**

In the recent review on Fly Control and Horse Sprays, the Horse Journal reviewed a vast array of products, combining all-natural and chemical products. They were testing to see how well the products worked in the summer heat and under hard working-sweaty conditions.

The Horse Journal commented regarding *Ricochet*™: **“A great herbal spray with a refreshing citrus scent and the power of a chemical formula. It performed well in hot, dry conditions, with sweaty horses.”**

Horse Journal's “Bottom Line”: **“If you want a natural spray, we recommend Equilite’s Ricochet Horse Spray. This product smelled great and proved effective in hot and sweaty conditions. It hung tough on the worst days, and it caused no negative skin or hair reactions in any of the testers.”**

Ricochet™ Horse Spray is available in a 32 oz. spray, a Gallon Refill Container and the new *Ricochet*™ Wipes--handy towelettes infused with Ricochet.

“We have never believed that fly sprays worked. If we were not given a bottle of the *Ricochet Horse Spray*™, we probably never would have used it. It really works! We find that we can send Funny Cide out in the morning and he does not need anything for 3 or 4 sets. Other trainers have commented that their horses are getting eaten up while Funny Cide stands undisturbed by the bugs. So glad we tried it. It is the best spray we have ever used!”

Barclay Tagg, Thoroughbred Race Horse Trainer--Derby Preakness Winner

“Congratulations to you and whoever else is responsible for *Ricochet Horse Spray*™. While standing at the in-gate up at HITS Horse Show, I sprayed my horse, Gulliver, and not my friend's horse that was standing next to Gulliver. Within minutes, Gulliver had stopped swatting and stomping at the bugs and my friend's horse was still miserable and getting eaten by the gnats and horse flies. (Yes, I did eventually spray her horse, too -- I am not that mean!!!)”

“Even better, I love the smell and the fact that it does not damage their coats like the other horse sprays that ‘work.’ All throughout the year, I use the Ricochet since I love the smell and it makes his coat nice and shiny.
